Subject: Thank you for supporting birth control access for all women

Dear Kathleen Sebelius, Secretary of Health & Human Services,

I commend the Department of Health & Human Services' landmark decision requiring health insurers to cover the full cost of contraception, with no co-pay, beginning in August 2012.

This policy places a much-needed importance on women's health that is too-often not a priority in health care policy. Birth control is a critical part of preventive care, and making contraception available to all women, regardless of their insurance or ability to pay for it, will significantly reduce long-term health care costs associated with unplanned pregnancies.

I hope this will extend to all employers, health insurance and health care providers. As a college professor, I assure you this will improve the quality of life for our young women and the future children they can now "choose".

Thank you for prioritizing women's basic health care needs.

Sincerely,

Deborah Burghardt
